Complete Specification Table of Release Film

1. 90- degree Polyester Film (PE, applied for fiberglass wind turbine nacelle cover and other fields)

Width(m)	Thickness(μ m)	Roll Length(m)
4	80	100
5	80	100
6	80	100
7	80	100
8	80	100
10	80	100
12	80	100

2. 150- degree Wind- power Nylon Film (for pre- preg field, pale- yellow regular stock and standard roll- length)

Width(m)	Thickness(μ m)	Roll Length(m)
2	65	200
3	65	200
4	50	100
4	65	100/200
4. 57	65	150
5. 2	65	120
6	50	150
6	65	150

Width(m)	Thickness(μ m)	Roll Length(m)
6	75	100
7	50	130
7	65	130
8	50	130
8	65	140
9	50	100
9	65	100
10	50	150
10	65	150
12	65	100

Note: The above are standard models. Custom widths and roll- lengths are available for orders over 30000 square meters for single model below 10 meters. Narrow- width less than 2m can be cut from regular stock.

3. 204- degree Aerospace Carbon- fiber Nylon Film (regular- range inventory)

Specification	Thickness(μ m)	Roll Length(m)
1.5m flat sheet, green	50	153
1.5m flat sheet, green	65	153
3m flat sheet, green	50	153
3m flat sheet, green	65	153
3m flat sheet, green	75	153
4m flat sheet, green	50	153
4m flat sheet, green	75	153
4.1m flat sheet, green	50	153
4.1m flat sheet, green	75	153
4.2m flat sheet, green	50	153
4.2m flat sheet, green	75	153
4.6m flat sheet, green	50	153
7m flat sheet, green	75	153
2m tubular (unfolded width:4m), green	50	153

2.1m tubular (unfolded width:4.2m), green	50	153
2.1m tubular (unfolded width:4.2m), green	75	153
1.5m tubular (unfolded width:3m), green	50	153
1.5m tubular (unfolded width:3m), green	65	153
1.5m tubular (unfolded width:3m), green	75	153
0.08m tubular (unfolded width:0.16m), blue	50	300
0.1m tubular (unfolded width:0.2m), blue	50	300
0.2m tubular (unfolded width:0.4m), blue	50	300
0.25m tubular (unfolded width:0.5m), blue	50	300
0.45m tubular (unfolded width:0.9m), blue	50	120
0.6m tubular (unfolded width:1.2m), blue	50	120
0.7m tubular (unfolded width:1.4m), blue	50	120
0.75m tubular (unfolded width:1.5m), blue	50	120
1m tubular (unfolded width:2m), blue	50	120
1.2m tubular (unfolded width:2.4m), blue	50	120
1.5m tubular (unfolded width:3m), blue	50	120

Note: All tubular- shaped film can be cut into flat sheets.

Above- mentioned items are standard specifications. Custom- made sizes are supported for single- model orders over 10000 sq.m, the maximum reachable width is 8 meters.

4. 220- degree Aerospace Nylon Film (regular- range inventory, customizable based on customer samples, alternative to 230- degree material)

Specification	Thickness (μ m)	Roll Length(m)
1.5m flat sheet, green	75	153
1.4m (0.7- meter tube)	75	150
3m flat sheet, green	75	153
1.5m tubular (unfolded width:3m), green	75	153
4m flat sheet, green	75	153
2m tubular (unfolded width:4m), green	75	153
2.1m tubular (unfolded width:4.2m), green	75	153

Specification	Thickness (μ m)	Roll Length(m)
7m flat sheet, green	75	153
3.5m tubular (unfolded width:7m), green	75	153

5. 230- degree Aerospace Nylon Film (regular- range inventory)

Specification	Thickness (μ m)	Roll Length(m)
3m flat sheet, blue	50	153
3m flat sheet, blue	50	153
1.5m tubular (unfolded width:3m), blue	50	153

Note: The maximum customizable width reaches 8 m. All tubular film can be processed as flat sheets. Custom- made widths and roll- lengths are available for non- standard specifications, minimum single- model order:10000 square meters.

6. 246- degree Nylon Film (regular- range inventory)

Specification	Thickness (μ m)	Roll Length(m)
3m flat sheet, blue	75	153
1.5m flat sheet, blue	75	153
1.5m tubular (unfolded width:3m), blue	75	153

Note: Custom widths and roll- lengths are available for single- model orders above 10000 square meters.

7. 130℃- 260℃ Release Film, Inventory For All Temperature Grades

Temperature Grade	Width(m)	Thickness (μ m)	Roll Length(m)
130- degree, blue	1.2 / 1.3	35	610
130- degree, blue	1.5	35	520
130- degree, red	1.2 /1.3 /1.5	35	500 / 600
160- degree, pale- blue	1 / 2 / 1.5	40	500
260- degree, pale- blue release film	1.53	25	200

8. Resin Tube / Spiral Tube

Regular Stock Spec.	Standard Roll- Length	Remarks
10- 12, 12- 14	100 meters per coil	Custom- made specifications and lengths are acceptable
